### REASONS FOR ALLOWANCE

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of records fails to disclose or render an obviousness of a method, a computer-readable medium, and a system comprising: automatically receiving a data stream matrix; reducing the data stream matrix to a second data stream matrix; randomly computing a singular value decomposition of the second data stream matrix, a probability of computation determined based upon a ratio of a magnitude of a sum of sampled values obtained since a prior computation of the singular value decomposition to a calculated product of a determined separating a value of eigenvalues and a determined eigenvalue of the second data stream matrix; and quantifying approximate linear correlations based on the SVD of the second data stream to identify and automatically report a denial of service attack without address spoofing along with other features as cited in independent claims 1 and 19-20.

The closest found prior art is Christos et al. ("Latent Semantic Indexing: A Probabilistic Analysis"). Christos et al. disclose a method to receiving a data stream matrix and reducing to a second data stream matrix and computer the SVD along with correlation. However, Christos et al. fail to disclose the step of randomly computing a singular value decomposition of the second data stream matrix, a probability of computation determined based upon a ratio of a magnitude of a sum of sampled values obtained since a prior computation of the singular value decomposition to a calculated

product of a determined separating a value of eigenvalues and a determined eigenvalue of the second data stream matrix; and quantifying approximate linear correlations based on the SVD of the second data stream to identify and automatically report a denial of service attack without address spoofing as seen in the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
